# Contents of Volume 24

## Number 1, July/August 1992

The effect of TNFa on bradykinin receptor binding, phosphatidylinositol turnover and cell growth in human A431 epidermoid carcinoma cells
D.G. Sawutz, S.S. Singh, L. Tiberio, E. Koszewski, C.G. Johnson and C.L. Johnson (USA) 1

In vivo treatment with a monoclonal antibody to interferon-gamma neither affects the survival nor the incidence of lupus-nephritis in the MRL/lpr-lpr mouse
F. Nicoletti, P. Meroni, R. Di Marco, W. Barcellini, M. Orietta Borghi, M. Gariglio, A. Mattina, S. Grasso and S. Landolfo (Italy) 11

Okadaic acid enhances human T cell activation and phosphorylation of an internal substrate induced by phorbol myristate acetate
Y. Tada, S. Yoshizawa, K. Nagasawa, I. Furugo, T. Tsuru, T. Mayumi, H. Tsukamoto and Y. Niho (Japan) 17

AO 1535 inhibits $O_2^-$ production by human macrophages
G. Spampinato, L. Messina, L. Malaguarnera, A. Arcidiacono, M.A. Giuffrida, E. Guarniera, E. Geremia, A. Rastrelli and A. Messina (Italy) 25

Influence of glucocorticoid, aspirin, and gamma globulin on interleukin-6 production in the hepatoma cell line
A. Nakamura, T. Kohsaka, D. Jin and N. Kobayashi (Japan) 31

Acetaminophen inhibits the human polymorphonuclear leukocyte function in vitro
E. Ali Shalabi (Saudi Arabia) 37

Influence of staurosporine, a more selective derivative CGP 41251 and an inactive analogue CGP 42700 on histamine release from isolated rat mast cells
N. Grosman (Denmark) 47

Mitogenic activities of heteroglycan and heteroglycan–protein fractions from culture medium of *Lentinus edodes* mycelia
T. Tabata, W. Watanabe, K. Horita, J.-i. Kamegai, S. . Moriyama, Y. Hibino, Y. Ohashi and N. Sugano (Japan) 57

Subtractive antibody to a human immunosuppressive lymphokine affinity isolates a suppressive factor and blocks its function
A. Zendedel Haghighi and M.K. Cathcart (USA) 65

## Number 2, September/October 1992

**Introduction**
Tony E. Hugly (USA) 77

**Overview**
Fourth European Meeting on Complement in Human Disease
M.R. Daha (Netherlands) 79

**Reports**
Synthesis of complement components by synovial membrane
K. Whaley, D. Guc, P. Gulati and D. Lappin (UK) 83

Mannan-binding protein, a complement activating animal lectin
S. Thiel (Denmark) 91

The binding of immune complexes by the erythrocyte complement receptor 1 (CR1)
M. Pascual and J.A. Schifferli (Switzerland) 101

The complement attack phase: control of lysis and non-lethal effects of C5b-9
G.M. Hänsch (FRG) 107

Assessment of complement activation in vivo
M. Oppermann, U. Höpken and O. Götze (Germany) 119

Interplay of complement and cytokines in the pathogenesis of septic shock
J.P. de Boer, G.-J. Wolbink, L.G. Thijs, J.W. Baars, J. Wagstaff and C.E. Hack (Netherlands) 135

The complement system in xenotransplantation
A.P. Dalmasso (USA) 149

## Number 3, November/December 1992

Inhibition of human lymphoproliferative responses and altered lymphocyte membrane phenotype by succinylacetone
A. Winkelstein, R.A. Hess, K.D. Leichtling, M.O. Jackson, R.M. Blaese and L.D. Weaver (USA) 161

Mast cell heterogeneity in man: unique functional properties of skin mast cells in response to a range of polycationic stimuli
K.R. Tainsh, W.L. Liu, H.Y. Lau, J. Cohen and F.L. Pearce (UK) 171

Tamm–Horsfall glycoprotein (THG) purified from normal human pregnancy urine increases phagocytosis, complement receptor expressions and arachidonic acid metabolism of polymorphonuclear neutrophils
C.-L. Yu, W.-M. Lin, T.-S. Liao, C.-Y. Tsai, K.-H. Sun and K.-H. Chen (Taiwan) 181

Role of protein kinase C in the phosphatidylserine-induced inhibition of DNA synthesis in blood mononuclear cells
E. Caselli, F. Bellini, D. Ponzin, O.R. Baricordi and A. Bruni (Italy) 191

Methylxanthine-induced inhibition of the antigen- and superantigen-specific activation of T and B lymphocytes
L.A. Rosenthal, D.D. Taub, M.A. Moors and K.J. Blank (USA) 203

1-β-D-Arabinosylcytosine and 5-azacytidine induce internucleosomal DNA fragmentation and cell death in thymocytes
H. Kizaki, Y. Ohnishi, Y. Azuma, Y. Mizuno and F. Ohsaka (Japan) 219

A functional characterization of macrophage alterations in casein-treated B6C3F1 mice
N.E. Kaminski and M.P. Holsapple (USA) 229
